

Anna ISD Gifted and Talented Newsletter

Message from the Director, Debbie Dumas

Genius Hour updates:

Anna High School: This semester, students can send GT work electronically by email instead of keeping up with the cumbersome binders, if they prefer...AHS Students are working on what breaks their hearts and how to make a difference in their world!

Anna Middle School: We are working on program changes for next year...stay tuned for details! Also, Ms. Rader is working on an exciting parent night this spring! We will communicate with you about the date/time.

Anna Elementary Schools: Students now have a place to house their two required GT extension projects; for more information, click on the website given below under the button "eportfolios." Also, students are discussing some of the pros and cons of being GT and how to survive the social and emotional aspects of giftedness.

Announcements

What is Genius Hour?
