

## **IMPORTANT EpiPen NOTICE**

Due to the backlog of production and distribution of EpiPen 0.3mg Auto-Injector and EpiPen Jr. 0.15mg Auto-Injector, Anna ISD will temporarily not have the EpiPen Jr 0.15mg Auto-Injector available for use on each of the campuses. The population affected by this will be any student 33 to 66 pounds. As soon as Mylan EpiPen's pharmaceutical distributor has them available, they will once again be on each of the Anna ISD campuses.
