Dear Parents/Guardians,

One or more of your child's classes is now using Schoology, an integrated learning management solution that provides course management, mobile learning, and support for system-wide communication. Schoology enables our students, parents and teachers to engage with learning materials and their school community from the classroom and beyond. We look forward to using Schoology in our classrooms to enhance connectivity and communication across Anna ISD.

With Schoology, students can digitally submit homework assignments, review grades, participate in interactive discussions, receive announcements and feedback, take tests, write academic blogs, and more. As a parent, you will be able to view your child's activity within the platform.

Your child has already been given his/her login credentials. Your login credentials to access the Anna ISD Schoology system can be found below. We value your participation in your child's education, and we encourage you to read Schoology's Privacy Policy & Terms of Use at <https://www.schoology.com/privacy.php>. Student progress and activity will be monitored by faculty to ensure a safe, secure, and controlled environment.

Visit annaisd.org > Parents > Schoology to find information with instructions on how to create, log into, and use your Schoology account. If you have questions or feedback regarding Schoology, you can email your child's teacher or Mindi Vandagriff, Anna ISD Coordinator of Professional & Digital Learning at mindi.vandagriff@annaisd.org.
